

SPEEDWAY SW-0628

For heavier work, the most common type of sewing machine is the single needle, walking foot (compound feed) lockstitch machine. Top and bottom feed, and a higher foot lift allows the SW-0628 to sew from medium to heavy weight fabric.

For sewing leather, upholstery, canvas, and synthetics, the SW-0628 offers the whole package. Low noise and vibration design, outstanding build quality and reliability and the industries #1 DC servomotor.
